

Protect your loved ones. Download the app.

The new NHS COVID-19 app, is now available to download for free in England, and is the fastest way to see if you're at risk from coronavirus. The faster you know, the quicker you can alert and protect your loved ones and community.

The app has a number of tools to protect you, including contact tracing, local area alerts and venue check-in. It uses proven technology from Apple and Google, designed to protect every user's privacy.

Hythe and Dibden Youth football Club is supporting the NHS COVID-19 app by encouraging all our Coaches, Parents and Carers to download it if they can. We will be displaying an official NHS QR code poster at both our venues, Applemore College and Shore Road to help support our community.

Coaches and Parents/Carers will then be able to scan (check-in) as they enter either location. This means that if people visit the venue and later test positive for coronavirus, other app users who were there at the same time may be sent an alert, if local public health teams think this is necessary.

There is lots of information available online, but please keep an eye out for the QR code posters and scan yourselves in.
